

THE MOST
DRIVER CENTRIC TRUCK
FROM SEA TO
SHINING SEA.

■ UNPARALLELED DRIVER APPEAL

- A redesigned one-piece side window affords the driver a clearer line of sight.
- A column-mounted gear shifter allows drivers to keep their eyes on the road.
- Standard LED headlamps improve night vision.
- A more powerful HVAC system delivers better defrosting and demisting.
- An all-new interior offers an improved ergonomic design, including better elbow room, hip room and legroom.
- Armrest height was adjusted and the opening angle of the door was increased to improve entry and exit of the vehicle.
- The all-new premium gauge cluster offers monitoring of real-time fuel economy and provides other important alerts in clear sight.
- Switches are grouped by frequency of use to make them more intuitive to find.
- New displays assure every instrument is readable in any type of lighting.
- Horn cord was relocated back to its traditional, intuitive position.
- Bendix® Wingman® Advanced™ Collision Mitigation comes standard.

■ UNRIVALED FUEL EFFICIENCY

- Upgraded aerodynamic features on the new International® LT™ Series include:
 - Longer side extenders that shorten the trailer gap.
 - Aero-contoured hood, fender, wheel opening and chassis skirts.
 - Enhanced three-piece front bumper.
 - **The LT Series achieves up to a 7% improvement in fuel efficiency.***

■ BEST-IN-CLASS UPTIME

- New LED headlamps and fog lamps deliver brighter light and intensity.
- Tough new polycarbonate headlight lenses protect against breakage.
- Cab wiring includes all-new harnessing and an in-cab power distribution module that is inside the truck, away from the elements.
- A new single canister after-treatment system is up to 60% smaller and 40% lighter.
- After-treatment system is also simplified for quicker servicing.
